FENCEDYKE WAY

SRC, 10.12.1980 Civic Trust Commendation.

Civic Trust Awards 1980, 70 400 houses on a 10 hectare site divided into two sections, north and south, by a small pond. Owners: IDC. Designers: Department of Architecture, IDC, Sue Thornley, Jenny Smiley, project architects. Contractors, Crudens Ltd (northern section), Farrans (Construction) Ltd, southern section.
A most ingenious and pleasing layout gives individual expression to each house (of which there are many types) and because of the adaptable way in which units can be fitted together, an identity to each grouping is established, overcoming the common paternalistic pattern of housing estates. Fencedyke way is an altogether delightful 'agglomeration'. With this kind of approach shops and other facilities could be absorbed without the usual new town separation. The potential is enormous.
