Note from Archibald Frame, prop, 23.9.1991
Braemore was built in 1910 for his grandfather. It was by the same architect as The Grange, which was built before Braemore. The Grange was probably built for Mr Clelland, who was his grandfather's father-in-law. The factory in Burn Road (Basfiord Dyers) was probably also by same architect, as it belonged to Clelland. Hay Steel were used in the valley quite often.

WEST MAIN STREET, 156, KENMORE
