30-32, BRAEHEAD

(preWW2, listed under Holm Street)

List 9 — c.1840. Large ashlar stone blocks; 2 storeys; 3 sash windows; 4 flat pilasters carried up full elevation height; centre painted stone columned porch; flanking windows on ground floor set in elliptical headed panels, with narrow oblong blank panels on either side; leaded boxed parapet, cornice, low pitched slate roof. Rectangular on plan, older portion to rear; standing in walled grounds. B.

Davis — Dating from 1809, Braehead was originally situated on the very edge of the village with the ground falling sharply away in front of it. Although relatively small, this is a very elegant house indeed, with a tripartite division of the front suggestive of a triumphal arch. The wing to the rear is older than the main house and appears to be of C18 date.

Sas Minute 30 of 1871 — 1870 Disp by William Kerr Russell cloth merchant to Alexander W Rodger, bonnet manufacturer, of "10F in Stewarton called Kings Kitchen Head now Braehead w houses thereon b.o.t.S by the High Road". [Is this this Braehead?]
