PORTLAND TERRACE

1-10

AP, 8.7.1881 (In AP, F 3.7.1931, 2c: Fifty Years Ago)

The lethargy which has for nearly twenty years characterised the feuing of ground on the peninsula on which Troon is situated is now thrown aside since the advent of the accession of the young Duke of Portland. During the deadlock of his predecessor it was with the utmost difficulty as much could be obtained as would suffice for a police office and a lifeboat house. An extensive builder from Glasgow has just broken ground, and already shown commendable energy in entering upon the utilisation for building purposes of the beautiful meadow, so long the ornament of Troon and a great attraction of visitors thither. The ground is feued by James Dickie, Esq., a wealthy native of Troon, who is well-known in Paisley, owing to his having been for several years lessee and tenant of Ralston House. He has feued a large portion of a meadow bordering on the beach where, in days of yore there was a great ropework of Troon.
